MORE TO BE REVIEWED IN DEPTH ONCE YOU TURN YOURSELF IN

DESCRIPTION

WANTED BY: A privately owned business (the largest Ice Dam Removal Company on the planet) is offering this reward.

WHO WE SEEK: We seek out those willing to become part of our team, and join our "Get R done" group of individuals who welcome the satisfaction of putting in a full day's work. The best people for this job are individuals who are seasonally employed that can devote a portion of their winter to a job as demanding as this profession can be.

WHAT IS REQUIRED TO RECEIVE YOUR REWARD: You'll be expected to climb atop residential roofs and safely navigate snow & ice covered rooftops in the dead of winter. Specifically, your job will be to remove ice dams from these roofs using a gas-powered steamer, provided by us. You will have to make yourself available 7-days a week in whatever part of the county Mother Nature has chosen (once there, you'll make yourself at home until our season has ended). Ice dams don't care about the day of the week, they don't care about a holiday (or have any clue what family time is). Ice Dams simply don't give a damn. We operate as any other emergency type service would. All jobs are pre sold – so your focus is on your work, not on sales. During a typical season, Unlimited hours are available for approx. a 5-10 week window. Technicians that are willing to work 12 hr. days / 7 days a week can realistically earn 40K in 8-weeks (assuming we have a snowy winter with prolonged/steady work).

YOUR ONLY REGRET WILL BE THAT YOU DIDN'T CALL SOONER!
